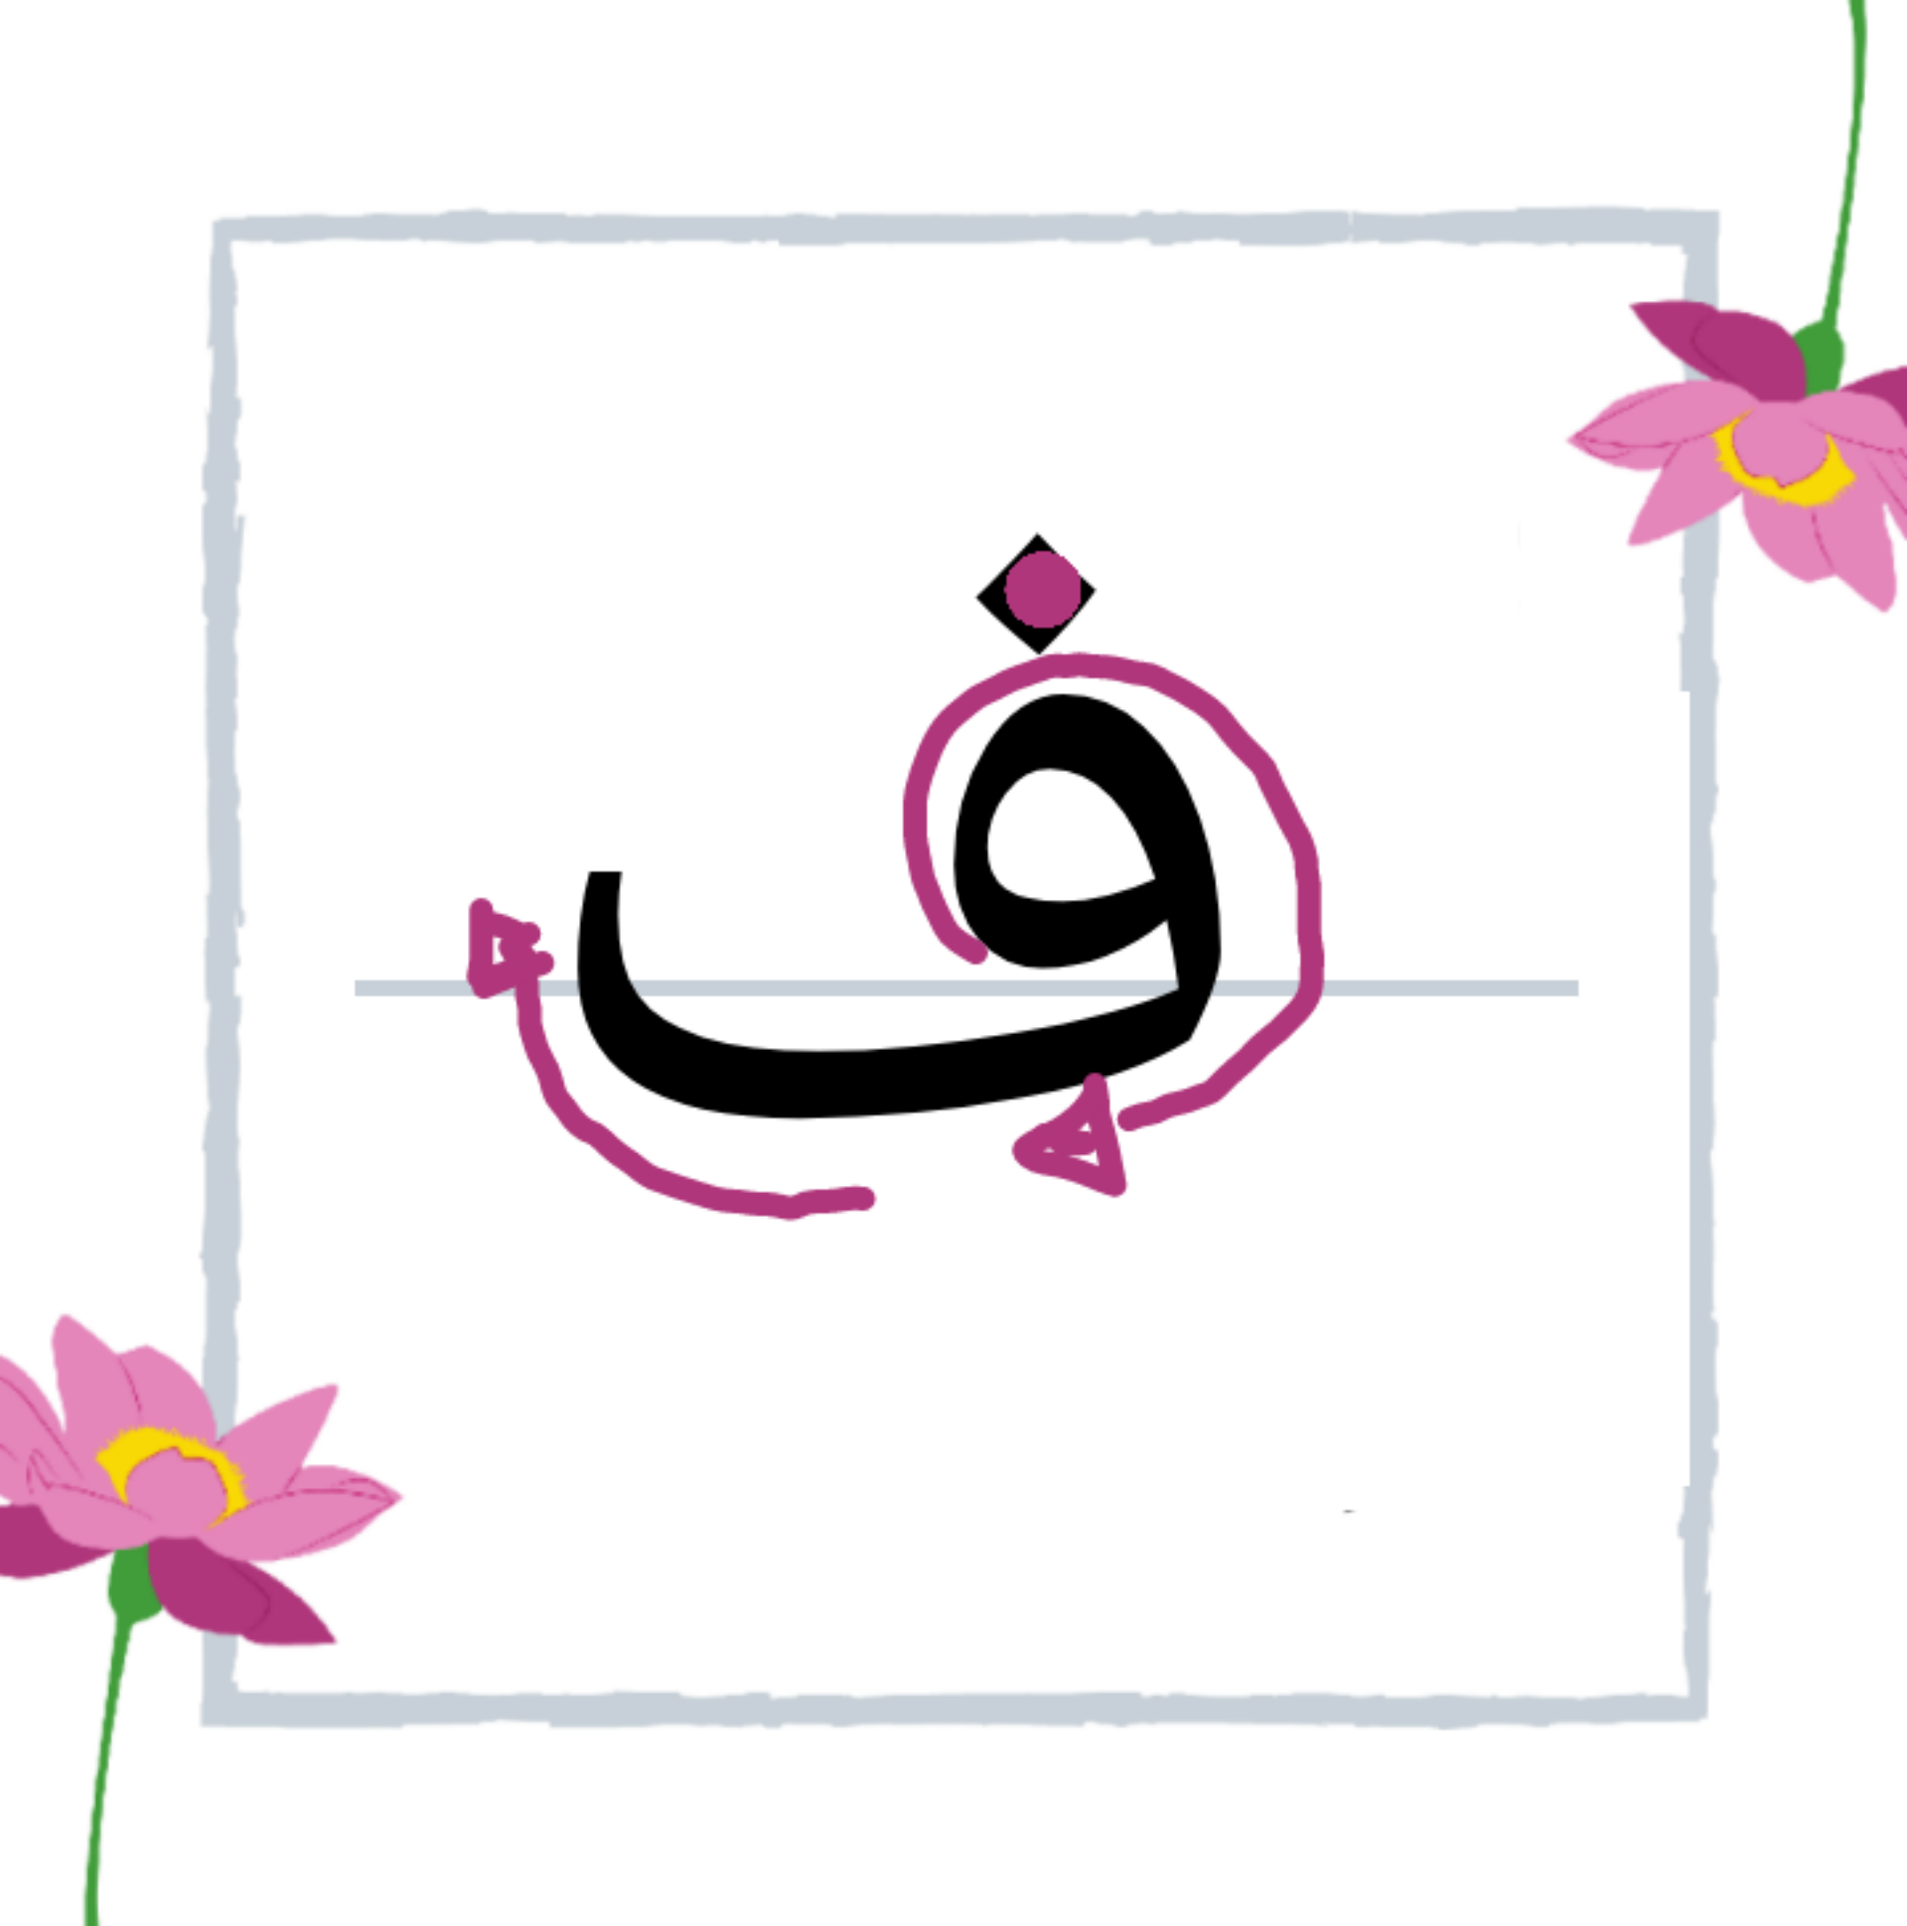
Lesson 16

The 20th letter in the Arabic alphabet is the letter FAA. The equivalent of the sound of the letter in English is the letter F like when we say 'Found'.



ف

With short vowels:

فَ فِ فُ

ف

End	Middle	Beginning
ـف ف	ـفـ فـ	فـ

*When the ف comes in the middle, if preceded by a letter that doesn't allow joining then it will be written like in the beginning, and if it's preceded by a letter that doesn't allow joining when at the end it will be in its original form.
